Reports by:

Unit Chair

Contract approved by 51 members and certified today. Loss of Denise Rhodes is devastating to Castleton and the union. She was there for the final meeting where everyone agreed on the terms of the new contract. Searching for President of VTSU. There will be training for this person. More money from Legislature thanks to VSEA fighting for us and working with AFT. We should receive reimbursement for the childcare tax they took without permission. Grade 5-6 upgrade mentioned to the Chancellor again.

Campus Reports at:

Castleton

Billie said one dorm has reopened. The campus was full in the summer, so there was no time for deep cleaning. There are more students and less custodians.

Johnson

Christy reported custodians are setting up for conferences. Relocating offices in Martinelli so the community may use the space for town offices. Financial aid has a vacancy. All checks for Randolph sent to Johnson for processing.

Lyndon

Denise reported we have 200 new students. We should have 8 custodians but only 6. 3 dorms are occupied by student while 5 aren't being used.

VSEA

VSCC wants CCV to stay separate from us even though it would save money to have them on campuses. UVM has more in-state students.

Adjourned by Christy and seconded by Denise Doyon.
